

# **WorkKeys**

## **Available Resources for Teachers**

### **Resources for WorkKeys® and GED® Preparation**

#### **Locating Information**

[http://ket.pbslearningmedia.org/collection/ketae\\_instr/?topic\\_id=226](http://ket.pbslearningmedia.org/collection/ketae_instr/?topic_id=226)

The WorkKeys assessment requires learners to navigate and draw conclusions from a variety of workplace graphics, from simple order forms to complicated instrument gauges. This collection of resources is designed to help learners locate information in commonly used graphics.

#### **Applied Mathematics**

[http://ket.pbslearningmedia.org/collection/ketae\\_instr/?topic\\_id=238](http://ket.pbslearningmedia.org/collection/ketae_instr/?topic_id=238)

WorkKeys learners must be able to apply mathematical reasoning, critical thinking and problem-solving techniques to work-related problems. This collection of resources is designed to help learners with math skills.

#### **Reading for Information**

[http://www.pbslearningmedia.org/collection/ketae\\_instr/?topic\\_id=222](http://www.pbslearningmedia.org/collection/ketae_instr/?topic_id=222)

WorkKeys are required to comprehend, interpret and apply information from written communications. This collection of resources is designed to help learners understand and apply what they have read.
